A mysterious shipwreck. A windsurfing accident. Is a modern-day sea monster stalking the waves?

Before Key West was the party capital of the Florida Keys, it was built by wrecking skippers who in feats of derring-do raced to shipwrecks to save their cargos from the ocean depths. But when her dear friend Nestor Frias runs a billionaire's luxury power yacht on up on a reef on its maiden voyage, Seychelle begins to suspect a chilling scenario: that modern-day wreckers are causing yachts to crash onto the reefs-and killing off whoever gets in the way.

Seychelle embarks on a dangerous course through the shoals and channels of the case and her life, unaware that a greater danger is

looming: a murderous human storm designed perfectly for her.
